SUBJECT.

Suspension and reinstatement of

Mr. Chengalvarai Naidu.

Indexed

MEMO.

Re C. Chengalvaraya Naidu, Municipal Executive Engineer, Bangalore City.

Sl 5 in L F 131 of 97

In Govt: Pro. No.14683-7/ 15 dated 10/8/98 3098, Mr. Chengalraroya Naidu was appointed Municipal Executive Engineer on probation, on a salary of Rs.100/ "to start with" and in Govt Pro.No.7960-1/L.F.131-97 dated 12th January 1900, the official was confirmed in his appointment and the disbursement to him of the full pay of the post viz., Rs.150/ was sanctioned (Vide serial Nos 51 & 58), all on the basis of the President Mr. Puttanna Chetty's good report (that the Engineer was working hard and was doing good work) and recommendation (Vide serial 57)

Sl 5 & in — 6

2. In October 1900, however, Mr. Venkatavaradaa Iyengar, the then President, brought to the notice of Government the insubordinate conduct of the Engineer in regard to putting the roads in order in view of the Viceroy's visit and requested orders in the matter.

residents' No A 87 29-10-00 (Sl64)

3. Government having then to [illegible]

to enter into the merits of the case, ordered the official's suspension and the President was called upon to formulate the charges against him and submit the same with his (Engineer's) explanation for such charges in due course (Vide serial No.65).

Pro no 6136-8 / L.F.131-97 dt 1-11-00 (Sl 65)

4. But instead of formulating any such charge, Mr.Venkatavarada Iyengar recorded a note as follows :-

President's No.96 dated 12/12/00 serial 71.

"As the Executive Engineer promised to do well, he was not suspended but given a chance, and that thereon he did very well, and that in consideration thereof I beg leave to withdraw my letter on the subject"(vide serial No.71)

5. In the above circumstance the Govt: withdrew their previous order suspending the Executive Engineer.

Pro. No.6383-5/L.F.131-97 dated 21/12/00 (serial 75)

6. In Pro, No. 15497-98/L.F.29-93 dated 20th May 1901, the Municipal Executive Engineer was reprimanded and the President asked to watch his work for some months and to submit a report at the end of December 1901.

Serial 24 in L.F.29-93.

, and both the late Vice President and the present vice President were held ultimately responsible for the delay in atteding to this most important and urgent work. In according approval to the issue of the above order proposed

& delay in carrying out all round the above Christian Council Grant in the case

proposed by the Councillor, the Dewan was pleased to observe as follows with reference to the Executive Engineer's explanation in regard to the delay in the execution of work.

Dewan's note of 9th May 1901 (Serial 24 in L.F.294-93).

All have more or less made a mess in this matter and are responsible for the delay. But the Ex: Engineer's chief plea is non payment to the contractor for work and which prevented him from doing this work. Want of quarry is another excuse but that is not very material. If for several works money was not paid what could the Ex: Engineer do with a contractor dunning him for payment and not in a position to pay ?. This point has not been explained by the Administrative officers including Mr. Puttanna Chetty. The interference of Srikantayya is another excuse. All these points no doubt extenuate the guilt or negligence of the Ex: Engineer but I wont object to the warning order proposed by the Councillor"

7. Nearly 7 months after the expiration of the date fixed in the order of May 1901, the President (Para 6) reports (1) that the order of suspension passed

Proc. No.6136-38/L.F.131-97 dated
st November 1900 and the warning given
y Pro. of 20th May 1901 (2) that Mr.
.S.Varavan Row recorded "the Munici-
l Ex. Engineer has clearly disobeyed
e distinct orders given," that that
he Ex: Engineer not only failed to
ey orders directing him to see to the
rompt repair of all road repairs throu h
hich the Viceroy is likely to pass and
ermit his diaries but has tried to
hirk work and (3) that he suspended
in as his continuance in office at this
ncture would retard the progress of
he works. The Vice President was direct-
d to look after the work with the help
of a P.W.D. Sub Overseer whose services
ave been obtained from the Ex: Engineer,
ngalore Division.

. The Proceedings state that the Munici-
al ... and resolved on 28th June 19 2
or about a month previous to the suspen-
ion to do away with the appointment of
he Municipal Ex: Engineer on Rs.150-2-
nd employ an Engineer on Rs.100 per mon-
se .

). It is stated in Pro. No.131-9
. .131- ... [illegible] ...
... [illegible] ... referred
... [illegible] ... the
... [illegible] ...

a) ... the preliminary estimate for

... [illegible] ... does not ex-

(1) This was at the Pres request—

(2) had no wholesome effect upon him

exist for the maintenance of Râce course road through which the Viceroy is expected to pass, and the provisions proposed for other roads were reduced by Government for want of funds to the extent of Rs.11729/ with a request that further reductions of more than Rs.52367 be made to provide for the maintenance of water works. As the revised budget has not yet been received, the office cannot say whether funds were allotted for the repair of roads in the Viceroy route and whether the delay now complained of may not have been due to omission to pay contractors as the Dewan was pleased to observe in connection with Cemetry work. May the President be asked, as on previous occasion, to formulate charges against the Ex: Engineer and submit the same with his explanation within a week or so and to state on what date the Ex: Engineer was directed to put the Viceroy route in order and on what date he was suspended and what quantity of work if any was turned out by him in the interval and how he attempted to hamper ~~work~~ the progress of work.

(b) Under section 13 of the Municipal Regulation, the appointment & removal of the Municipal Ex: Engineer,

Collector of Municipal taxes as well as the Sanitary Inspector rest entirely with Government and the President has ~~no~~ no power to appoint or remove them. The order passed by the President on his own authority suspending the Ex:Engineer and employing a D.P.W. sub overseer without formal sanction of Government is not in conformity with the Regulation or existing practice.

(c) Moreover the Board's resolution to abolish the appointment of the Municipal Ex: Engineer on Rs.150+20 and to employ an Engineer on Rs.80+20 also appears illegal, as the said section 13 makes the appointment of an Ex: Engineer obligatory and vests in Government the power of fixing his allowances. If the Board consider that the scale of pay fixed by Government to the Ex: Engineer or Sanitary Inspector is high, they should make an application to Government to reduce the same and after approval the necessary action may be taken by the President.

By "Engineer" was I think meant "Executive Engineer" The ~~Engineer~~ Respondent is Executive Engineer

Submitted for orders.

14. A petition from Chengalvaraya Naicker has been received in office the states among other things that "though the appointment and removal of the Executive Engineer rest with the Government, yet he instead of appealing at once to the Government against

the

$\frac{A}{2}$ 1, pages 7 to 11

President's order suspending him, submitted his explanation to the President on the very day (20th July 1902) bringing to notice his grievance and praying for a reconsideration of the order and that no reply was vouchsafed to him though a month expired since the date of the order". He submits copies of his explanation to the President and the memo which accompanied it, and prays that an enquiry may be held into the matter & orders passed at an early date.

15-- Submitted for orders as to whether the petition may be forwarded to the President and he be requested to expedite the submission of the information called for.

his office docket no 4032 / 7/31-97 serial no 83
dated the 17th Sept 1902 as
also a report on the several
allegations contained in the
petition. Yes. Bring with the draft.
Dr 22/9/02 93 / 23/9/1902
Draft docket passed (vide ^ and issued
no 4572 / 7/31-97 dt 24.9.02)

16 The President now
submits a copy of his
charges framed against
Mr Chengalvaraya Naidu
and his explanation in original with
his remarks thereon. The
President has said nothing
with regard to the petition
of the Municipal Executive
Engineer which was for-
warded to the President
for report on the several
allegations made therein. The
several charges against
the 2nd Executive Engineer,
his explanation thereto and

are given in para 4 of the President's letter No 121 dated the 27th Oct. 02 and enclosure a type-written copy of which is submitted

7 On the Executive Engineer's explanation Mr. Sparkes has made the following remarks.

"The explanation in itself is plausible, but I am perfectly certain that had Thengalvaraya Naidu been allowed to remain in charge of the Roads prior to the Viceroy's visit very little would have been done to put them in a fit state and it was on account of the ~~enquiry~~ urgency of the case that the order of suspension was passed. Mr Venkatavaradarajar has on more than one occasion expressed to me verbally his dissatisfaction with this Naidu's work while he was in charge of the Bungalow Municipality".

18. Neither the President
nor the Health Officer nor
in Charge of the Vice Presidents
Office could say anything
as to the correctness or otherwise
of the Explanation offered by
the Executive Engineer, ~~and~~
It would have been well if therefore
the Same had been submitted
after the return of Mr. B Krishna
Rao from Leave. As the
case now stands, the charges
framed against the Ex Engineer
do not seem to be ~~correct~~ so serious as to
keep him under Suspension
any longer, as the main
Cause of Suspension seems to be the failure
on the part of Mr. Ken Cabraja
Raidu to Submit daily
diaries Showing the progress
of work done by him.

19 The Resolution of
the Board reducing the
pay

pay of the Executive
Engineer from Rs 150+20
to Rs 80+20 is submitted
with the President's letter
No 5 & 30th August 1902.

× Serial no 82
(... ...)

This, it is respectfully
submitted, has nothing
to do with the present
question of suspension.

Submitted for orders.

DJ
20/11/1902

20. On the face of it, the case seems to have been disposed of without due investigation. Suspension of an officer of this status ought to have been carried after his explanation had been duly taken.

Even if it is ordered to have been withdrawn, the withdrawal is not to be construed as an exoneration of the charges.

[illegible]

the period directed to be dis-
bursed.

[illegible] 24/4/03

C.S. Chief

OK

27.4

34 In docket no 15,853 / L.J. 131 97 of the 9th May '03, the President was requested to report whether the Municipal Executive Engineer's salary for the period Chengalvaraya Naicker was under suspension was available, the total period of service put in by Chengalvaraya Naicker on the Municipality and the leave he has had

during the period. Also, the President's opinion was called for on Thengalvaraya Naidu's application to grant him the back pay.

35 The President reports in reply that as Thengalvaraya Naidu took charge of the Municipal Engineer's Office on the 16th May 1898, he has put in a service of five years in the Municipality, that the only leave granted to him in the interval was 15 days' casual leave in June 1901 - of which he availed himself of only Ten days & that during the period of his suspension Krishnaswami Naidu, a P.W.D Sub-Overseer of the Bangalore Division had been employed on Rs 50+3 to look after the duties of the Municipal Executive Engineer in reply to the other query, whether the Engineer's pay is available for the period Thengalvaraya Naidu was under suspension the President states

that in the current year's sanctioned provision is made for an Engineer on Rs 150+20 and an Overseer on Rs 50+15 that the latter post has remained throughout the year, that the Sub-Overseer, Krishnaswamy Naidu was paid out of savings from both the above mentioned items, and that, therefore, the Executive Engineer's salary is not available in full for the period during which Chengalvaraya Naidu was under suspension. The President has not offered his opinion on Chengalvaraya Naidu's application for disbursement of back pay.

36 It is submitted that a separate report has been called for from the President regarding the appointment of Krishnaswamy Naidu as Municipal Executive Engineer without the sanction of Government. It is not known, understood why the S.O. Overseer Krishnaswamy Naidu was paid allowance of

of Rs 30/- a month when the Municipal Engineer and the Overseer are allowed only Rs 20/- and 15/- respectively.

37 The amount disbursed to the D.P.W. Overseer for the period he did the work of Thengalvaraya Naidu is Rs (50+30) × 7 = 560 rupees. The provision made in the Budget for the salary of the Municipal Overseer (which place is reported to have been vacant throughout the year) is (at Rs 50 + 15) 780 rupees. It is therefore submitted that the D.P.W. Overseer's salary for 7 months viz Rs 560/- may be met out of the provision of Rs 780/- made for the Municipal Overseer's salary and that the Municipal Executive Engineer's salary for the period Thengalvaraya Naidu was under suspension (from 20-9-02 to 24-10-1903) may be considered as being available in full.

I have no particular objection
to the scope - proposed but
I prefer the President being
asked why under the cir-
-cumstances set forth
above, he has reported that
the Egyptian Govt is not
available, and how he
proposes to meet the
Italian Govt during the
period of his absence -
It is reported that the money
has been otherwise utilized -

C

Sec 5703

8.4.10

As regards the question of disbursing the back pay to Chengalvaraya Naidu please see paras 20, 21 and 24 supra

Submitted for orders. In spite of
Dy 20/5/03 the reference made to him, about the disbursement of pay due to ~~Chinnaya Boy~~ Chengalvaraya Naidu, the President gives no opinion. Did he suspended the Engineer without due authority, and as the suspension continued longer than he expected, he seems to be reluctant to offer any opinion on the point.

The 2nd Councillor has already observed that as there was nothing serious against Chengalvaraya Naidu, his pay for the period during which he was under suspension should be disbursed to him. A draft sanctioning the disbursement of pay is laid for approval or other orders.

Drawn through the 2nd Councillor

Dy 3
21/5/03

Orders were issued in G.O. No. 25

D 154-5
L 7 131-97 dated the 27th June 03 directing that the salary for the period Chengalvaraya Naidu was under suspension be disbursed to him from the provision made therefor in the Budget for 1902-'03, and calling for a report as to how, if the said provision was otherwise utilized, the charge could be met.

In reply, the President states that the salary of Chengalvaraya Naidu has been disbursed to him out of the savings under VIII P.W. Suspension Charges in the Budget for 1902-'03.

Draft recording the letter and communicating the same to Comptroller is submitted for approval on other orders.

Office of the President of the
Bangalore City Municipality
Bangalore 2nd October 1901

To.

The Secretary to the
Government of Mysore,
Revenue and General Depth.

Sir,

About 2 months ago the Assistant Secretary on duty with the Dewan wrote to me to have certain roads in the Bangalore City put in order in view to the visit of His Excellency the Viceroy. Accordingly I asked the Municipal Engineer Mr. Chengal Roy Naidu to attend to them, and finding that

more important roads viz: the
race course road, the Sydney
road, the Mission road &c:
were not taken up, I remind-
ed him of them again and
again and he on all those
occasions said that he
would do them soon. But
he never did so, although
I constantly urged him and
told him that the sister
Municipality of the Civil
and Military Station of
Bangalore was going on with
the roads therein rapidly.
Finally I told him on the
29th October 1900 (in the
presence of Police Superinten-
dent Mr. Krishna Row, an
Assistant Commissioner of Shenivassangar

and the Assistant to the Excise Commissioner Mr. Venkatrangayya that much time had been lost that the delay was culpable that the Government would take serious notice of it and that therefore he should begin the said roads soon; but his reply was that they would be done "in due course". I said that that answer would not do and that if the repairs of those roads were not started by today (Monday the 29th october 1900) I would be compelled to report him to Government. Yesterday evening (the 28th October 1900) on my return from Nedavole where I had been in connection with His Highness's visit, I found

letter on my table from the Assistant Secretary on duty with the Dewan stating that the Dewan was "sorry to notice that many of the roads (not even the main race course road) have not been taken up on hand yet though instructions for the repair of the roads were given so far back 30 August 1900." On seeing that letter I asked the Chamarajpet P.O. Station by telephone to request Mr. Municipal Engineer Changalroy Naidu, who resides next to that station, to step over to the station to talk to me, but, he sent word that he was making puja and that he would not be able to

Come

come for ½ an hour. I waited for several hours till 10½ o'clock and again and again asked him to come to the telephone to talk to me, as I had received an urgent letter from the Dewans house and wished to answer it at once after talking to him. But he did not come at all. Thus he has not only disregarded the orders so constantly repeated but has also acted in a manner quite insubordinate to me. And the Vice President also has always complained to me of his disregard to him. In these circumstances I beg the Government to relieve

transpired it is not possible
for me to take work from him
I beg that Mr Nallanaik ~~is~~
Moodeliar Superviser at Nela-
mangala may be kindly
given us as the Municipal
Engineer. If it, however, be
not possible to do this soon
(as there is only a month left
for His Excellency's visit), I
most humbly beg to suggest
that Mr. Changalroy Nandoo
may be made independent
of me and directly responsible
to Government, as I cannot
afford leisure (in this time of
tight work) to carry on un-
pleasant correspondence with
him. I therefore, earnestly

as kindly agreed to lend Challanacha Modi's services temporarily."

No explanation has been received, nor is there any of the action taken by the resident on receipt of last Govt Pro 1/11/00.

Dng 7/11/00
I submit to the Dy Secy for perusal. The Chief Engineer says that services of his Supdg Engr instead of the Challanagapa can be placed at the disposal of the Govt. The President has no further communication on the subject.

I met the Vice-President in morning & he told me that Cheegalroya Naidu had been kept on and that a recommendation would be submitted to Govt to cancel his suspension.

Dss
8/11/00.

Send him Copy of the Chief Engineer's letter & ask him how he proposes to carry on the work of the Engineering Branch.
Dss 8/11/00.

Stated that the services of Supervisor Mr. Challanagapa Nur & cannot be spared to the City Municipality for reasons stated.

No ~~30~~

From

THE PRESIDENT,
Municipal Commission,
BANGALORE CITY.

To

THE SECRETARY TO THE GOVERNMENT OF MYSORE,
General and Revenue Departments,
BANGALORE.

Sir,

With reference to para 1 of Government Proceedings No 1549-98 / L J 29-93 dated the 20th May 1901 calling for a report at the end of December 1901 as to whether there has been any improvement in the work of Mr. Thengalvaraya Naidu the Municipal Executive Engineer, I have the honor to state that the order of suspension (for disobedience of orders) passed in Government Proceedings No: 6136-38 / L J 131-97 dated the 18th November 1900 and the order of admonition and warning conveyed in the first Proceedings quoted above have

Naidu. He was given a longer time than allowed by Government to improve his Conduct, but he has failed to take advantage of it and his spirit of insubordination and dilatoriness in the execution of orders have in no way diminished in degree since the issue of the last two orders of Government referred to above. Even my predecessor Mr. M S Narayana Rao has left on record an order stating that "the Municipal Executive Engineer has clearly disobeyed the distinct orders given to him × × × × I am compelled to record my displeasure in regard to this Officer."

He was directed recently to see to the prompt repair of all the roads through which His Excellency the Viceroy is likely to pass, and submit diaries daily for the progress made in the work. He has not only failed to obey orders but has tried to hamper work. He has been found to be

Working

Working so extremely unsatisfactorily and disobedient to orders that it was considered that his continuance in Office at this important juncture would retard the progress of the works, and he has been consequently suspended in anticipation of Government Sanction The Vice-President has been directed to look after the work with the help of a D. P W. Sub-Overseer whose services have been obtained from the Executive Engineer of the Bangalore Division.

In Conclusion I would beg to mention here that the Board in their resolution dated the 28th June 1902 decided to do away with the appointment of the Municipal Executive Engineer on Rs 150+20 and

5. employ an Engineer on Rs 80+20 per mensem.

I have the honor to be

Sir,

Your Most Obedient Servant,

President.

No 56
Encs. two
From

THE PRESIDENT,
Municipal Commission,
BANGALORE CITY.

To

THE SECRETARY TO THE GOVERNMENT OF MYSORE,
General and Revenue Departments,
BANGALORE.

Sir,

With reference to your docket No 2731 / L 713-97 dated the 26th Instant calling for further report regarding the Suspension of Municipal Executive Engineer Thengalvaraya Naidu, I have the honor to state that on account of insubordination and dilatoriness in the execution of work he appears to have been all along found fault with on several occasions ever since he was employed in the Municipality In November 1900 Government were pleased to la- tion to

Suspension of Chengalvaraya Naidu

Proceedings No 6136-38 / L J 131-97 dated the 1st November 1900 on the report of the then President Mr B K Venkatawardiengar bringing to notice his disregard of orders and Spirit of insubordination in Connection with the repair of roads in the City on the occasion of the first visit of the present Viceroy to Bangalore.

In May 1901 when passing orders on the explanation of Chengalvaraya Naidu for the long delay in bringing to Completion the Construction of the Compound wall around the new Christian Cemetery, Government, in Proceedings No 15497-98 / L J 29-93 dated the 20th May 1901, Conveyed their Strong displeasure on account of the Serious neglect and culpable delay on his part in Connection with the said work And issued an order of admonition directing

directing that his conduct should be watched upto end of December 190. and a report submitted for any improvement that might be observed during the interval.

On 2d June 1902, my predecessor Mr. Narayana Rao recorded his note of displeasure regarding the conduct of Chengalvaraya Naidu while commenting on the insubordination and disobedience of orders on the part of that official in having employed on other Municipal Works, in spite of explicit and repeated orders to the contrary, one Kasinath Mangal Prasad who had been given the contract of constructing the Compound wall of the New Christian Cemetery, and had unnecessarily delayed its

Complet

Completion. By way of punishment for this negligence he was ordered not to be entrusted with any other Work until he Completed the Compound Wall.

Lastly, even after I assumed Charge of the Municipality, the Same Spirit of disobedience to orders and neglect of duty on the part of Chengalvaraya Naidu has come in evidence.

On the 13th July 1902 I issued verbal orders to him to put in order the marginally noted roads as the likely routes through which the Viceroy might pass. He was also directed to Submit diaries daily through the Vice-President for the progress of work. He failed to Submit diaries as ordered. He neglected to attend to the repair of all those roads. Upto the date of

Golf road
Race Course Road
Post-Office road
Avenue road
Sankey's road
Tumkur road
Lal-bagh
Kankanahalli

suspension work had been started only on two roads and even there the progress was very slow and unsatisfactory. Considering the short interval during which all the said roads had to be touched up, the way in which Thengalvaraya Naicu worked indicated that he did so more to hamper the progress of work than with a view to get through it in time. So, an order of suspension was issued on the 19th July 1902. Between the dates on which Thengal-varaya Naidu was ordered to attend to the repair of roads and was suspended he had only finished the metalling of a few yards of only the Race Course and Sankey roads

A Copy of the Boards' Resolution dated the 28" last=passed in Compliance of Government Order Conveyed in para 22 of Proceedings No. 9938-42 / L F 11-1907 dated the 21" December 1901 directing the revision and reduction of Establishments, — approving the Sub. Committees' proposal to reduce the pay of the Municipal Executive Engineer from Rs 150 +20 to Rs 80+20 together with an extract from the Committees' report containing the grounds on which the above resolution was based is herewith Submitted.

I have the honor to be

Sir,

Your Most Obedient Servant

H H Spoerry

President.

Extract from the Proceedings

Adjourned Special Meeting of the

Board held on 28th June 1902

x x x x

2. Docket No. 18677—L. F 11-1901, dated the 29th May 1902, from the Secretary to the Government of Mysore in the General and Revenue Departments, calling for the immediate submission of the revised budget for the current year as also the budget for the ensuing year prepared as per instructions laid down in para 21 of the Government Proceedings No. 9938-42 —L. F. 11-01, dated the 21st December 1901.

Proposed by Mr. Krishna Murti and seconded by Mr. Venkatachar that Government should not be asked to relieve the Municipality of the Educational charges. The motion was put to the meeting and was lost, only three being in favor of it. Proposed by Mr. Aga Abdulla Saheb and seconded by Mr Veerabhadra Chetty that the proposals of the Sub-Committee to reduce the pay of the Municipal Executive Engineer should not be accepted. This proposal was also lost—only three having voted for it.

Then the question of accepting the Sub-Committee's report containing certain proposals for the reduction of establishment was put before the Board It was accepted by the majority and it was accordingly resolved to forward the same to Government with the following observation.—

The Board would, in accepting the report of the Sub-Committee, respectfully represent to Government that even after making the utmost reduction possible, they are not in a position to meet the sum of Rs 56,000 on account of water charges. They, however, think that a sum of Rs. 25,000 or Rs. 30,000 could be paid, but even this will impair the efficient working of some of the Departments.

Sd/ H H Sparkes

President.

Copy

Public Works (a) Supervision

974/- 4824/- The present Supervision establishment is out of all proportion to the Amount Spent on works and the requirements of this Municipality in its present Crippled financial state.

Upto 1890 there was only one Overseer on Rs 50+15.

The Appointment of Municipal Executive Engineer Sub equent to that on Rs 150/- at first

which were perhaps necessary at the time, is not now required. The average spent on Public Works during the last 10 years is about Rs 32,500

In the Provincial Public Works Department an Ordinary 1st Class Overseer Supervises works costing on an average Rs 50,000/- to Rs 1,00,000/- which generally includes provision for important Original projects costing more than Rs 10,000/- The area of supervision extending over one to three taluks. Our average expenditure on works

As stated above is Rs 32,500/- the nature of works consisting chi of repairs of roads and drains and the area of supervision being confined to a single City. In view of these considerations and the present financial state of the Municipality it is proposed to abolish the post of the Executive Engineer on ~~Rs~~ Rs 150+20. and of the Overseer on ~~Rs~~ Rs 50+15 and employ one Municipal Engineer on Rs 80+20 and an additional Sub' on Rs 25+15

When more important
works have to be carried
out temporary hands
may be entertained

With reference to the
above I have the honour to
invite the President's attention to this office
no 2731 dated the 26th
L.2.131-97
August 1902 and to observe
that information as to how
the Municipal Executive
attempted to hamper the
progress of the work

+ Serial no 81

the req... was not
given till the 4th req. read-

has not been furnished nor has a copy of the charges, which the President was asked to formulate together with the Executive Engineer's explanation to each of such charges, been submitted as required. Reports, therefore, that the President will at once formulate specific charges against the said officer and submit the same to Govt. together with that officer's explanation, if any, and also to report how there was any attempt on his part to hamper the progress of the work as stated in the President's letter no 320 dated the 24th July 1902.

The President therefore again requested to frame separate charges against the Supt. on all the points urged against him, and obtain and submit explanations on each of them.

Some further explanation should also be sought from

[illegible]

2. It is observed that the order of suspension passed in November 1900 having been withdrawn at the President's own request in Govt. Pro No 8383-S dated the 21st December 1900 should not have been referred to in the Proceedings' reference to Government

Encls: Two files & charges framed by Chengalvaraj Naidu

From

THE PRESIDENT,

MUNICIPAL COMMISSION,

BANGALORE CITY.

To

The Secretary to the
Government of Mysore in the
General & Revenue Depts,
Bangalore

Sir,

With reference to your docket no: 4032. / L.F. 131-97 dated the 17th September 1902, calling for the submission of explanation of the Municipal Executive Engineer Chengalvaraja Naidu, Official Memorandum no. 4512 / L.F. 131-97 dated the 24th idem forwarding a petition received from him regarding his suspension, I have the honour to

herewith copy of Charges framed
gainst him and his explanation
original with my remarks
hereon.

The petition and its enclosures
received with the memorandum
above is herewith returned.

I have the honor to be
Sir,
Your most obedient Servant,

President

HRE

The following Charges

are framed against

the Municipal Executive

Engineer C. Chenpalvaraya

to show cause for disobedience

of orders and neglect of

duty.

Subsequent to the receipt

of the Govt: Order No: 15497-98
& F. 29-93

dated the 20th May 1901

conveying strong displeasure

on account of serious

neglect and culpable delay

on your part in connection

with the construction of the

Compound wall round

the

the name Christian Candelon
and requesting to report
about your conduct at
the end of December 1901.
You were ordered on the
11 May 1901 not to entrust
Kasimath Maugul Inaspd,
the contractor of the Land
Embankment wall any
other Municipal work
until he completed that
work. In Spite of the
above order you did give
other works to Kasimath
and when bills therefor
were received in the Head
Office you were asked on
April 1902 to submit a list
of

of ~~disobeying the orders~~ given to
Kusparath in disobedience
~~to the~~ above ordered and
to explain your conduct
in the matter You did
not submit the list
~~and~~ did not give your
explanation. A reminder
was issued on the 10th May
1902. It was not also heeded
Another strict order was
issued on the 19th to submit
your explanation before
noon of the 20 of May.
You did not obey it also.
Thereupon Mr Narain Rao
the former President record
his note of displeasure

(2)
Amendments and Additions
of orders, Revised Part A.
Explain your reasons
for delay in answering
these reminders.

2. Sanctioned Estimates
for Tumkur road, Post office
road and Sankey road
were sent to you for needful
action on the 19th December 1901
and that for Avenue road
on the 8 November 1901
Nothing was done by you
till June 1902
Explain your delay in
this matter

In view of the Viceroys
last visit to Bangalore
as

an order was issued

to you on the 17th January 1902

to start the work on the

Course road immediately

and submit a report for

the progress of work once

a week You did not do so.

Again on the July last

you were directed to

make special arrangements

to get through the repair

of the above road in time

and not to cause delay

by calling tenders etc.

On the 6th of the same month

another order was issued

to you to pay particular

Attention to the Race

Course round Lal-baghroad

and Amaravati with

some other roads as the

likely roads through which

the Viceroy was expected

to pass Up to 13th July 1902

You had not made any

perceptable ~~work~~ progress

whatever in the repair of

any of those roads. On

that date you were strictly

told to put on order all the

above roads and submit

diaries reporting progress

of work every day You

failed to obey this order

and submit diaries.

Explain your reasons

for failing to carry out

this order.

4) At the end of one week

after that date you had

reformed only a few yards

only two roads. Although

materials had been collected

some months before on

some of these roads and

sanctioned estimates

sent to him so long ago as

December 1901. you failed

to attend to the repair

of the sand roads in

spite of repeated orders

regarding them. These

evidence to show that
you never asked the
Contractors Concerned to
begin the work at all in
earnest with the apparent
intention of hampering
the work at a critical time.
Explain & provide reasons
for doing so. Invite
Why have you failed to
receive a letter sent to
your Bezwada Office from and
afterwards posted to you
although you have been
residing in Bangalore

Sd/. H H Sparkes
President

Copy'

Pdk President

Bangalore 5th October 1902

To

The President,
City Municipality
Bangalore.

Respected Sir,

With reference to your memo No. 281. of 24th September 1902. I respectfully beg to submit in juxtaposition the following explanation to each of the points of charges in support of the order of suspension (framed against me) in anticipation of Government Sanction.

The delay in the progress of the Cemetery work for which I as well as the Vice President was found fault with in the Govt Proceedings of 20th May/01, was chiefly due to non-payment to Contractor for 1 year together on account of works executed

Subsequent to the receipt the Govt order No. 1547-98/2729-93 dated the 20th May/01, conveying strong displeasure on account of serious neglect and Culpable delay in your part in Connection with the Construction of the Compound wall around the new Christian Cemetry

the President and
how any Subordinate
in my position can show satis-
factorily progress in the
Execution of works. and how
delays can be avoided under
the circumstances above
set forth..

Requesting to report about your conduct at the End of December 1901

The reason why the Vice President delayed the Submission of the report due on 1-1-02. for over 7 months is not apparent.
A copy of the favorable opin-ion recorded by W.B.K. Venkatarangaiya on 28/1/02 nearly a month after the date fixed for the Submission of the report, as well as copies of Testimonials granted by the former Presidents Messrs T.J. Leonard and Puttanna are also appended
Kind Perusal.

"Copy of W. B. K. Venkatarangaiya's letter dt 28/

"Dear Sir

- Pardon me for wr on your letter; I do

"to to save ~~Inefficiency~~.
"can certainly say that
"when a good deal had
"be done by way of
"ing the roads &c. on
"occasion of His. Excellency
the Viceroys visit to Banga
"lore, you carried the work
with Commendable Zeal
and I am Thankful
to you for having Completed
"all the Work given you
so well and in good time.
"Yours truly
Signed B.K. Venkatarangiah Jr

Copies of remarks made
by Mr. J. T. Leonard. in Service
Register.
"This Officer served under
me as Executive Engineer in
"the City Municipality from Mar
"1864 to date of my transfer.
"He gave me great assistance
"and I only regret that I
"had not an Officer of
his ability to help me
when I joined the Muni.
Capality in 1866. He is ac
-tive, truthful, and honest
and is capable in every
way. I only expect the t
his work he is not fit

as it should be
by a far higher
2-1-02 (Signed) J.J.

Copy of remarks made
by Pullaiya Shetty re
vice Register.

I have much
in testifying to the
work done by Mr.
Varai Raidu. Municipal
Engineer during my
office as deputy
and President of the City
Municipality extending
over more than 2 years.
He brought the roads into
very good order and took
charge of lighting at a
time when the Contractor
had struck work without
notice a time too when
plague was at its worst.
He converted the Municipal
Park into a beautiful
place fit for recreati
He responded cheerfully
to urgent calls from the
Nagadi Plague Camp.
I considered him an
honest hardworking

and my recommendation
he was confirmed in his
post on full Salary

Signed B. Sattanathan
27-1-01.

were ordered on 11-5-01
& to entrust Kasinath
Prasad. Contractor
the said Compound
ll, any other Municipal
rk till he completes
al work

In the memo of charge
the Vice President says
that I was ordered not
to give any work on
Contract to Mangal. Prasad
subsequent to the Govt
order dated 20th May/01,
but according to the date
of his order viz 11-5-01, as
quoted by him, it was nine
days previous to Govt
order. This is apparently
inconsistent.

a Spite of the above
der you did give other
rks to Kasinath.

It is submitted that
I gave Kasinath no other
Contract Work not even
petty Contract

d to hear bills therefor
ere received in the Head
fice. You were asked
11 April /02 to submit
list of all the works given
Kasinath in disobedience
the above order and to
plain your Conduct
the above matter. You
d not submit the

The fact that no work
was given on Contract
to Kasinath was explain
ed at length in my
detailed letter No 815
of 23d. May /02. And there
fore no lists were Sub
mitted. I beg to request
that the Vice President
may be asked to give

the list and did not give any explanation - a reminder was issued on 10th May/02 it was not also heeded to. Strict order was issued on the 15th to submit your explanation before the 20th May/02. You did not obey it - also thereupon Mr Narayen Rao the former President recorded his note of his pleasure for insubordination and disobedience of orders. Explain your reason for delay in answering these reminders.

the above. m.
which will prove the statement of the Vice President that no explanation was submitted in spite of reminders for which no numbers are given and which find no places on those days in the Registers maintained in the Engineers office is not borne out by facts. Moreover long before 11-4-02 when the Vice President questioned me as to why any contract work was given to Kasmiatti, the Cemetry work had been Complete (vide my Report No 808 of 15 May/1902, a copy of which is herewith. Sub, and I could have justified my action if any work had been given to the man on "Contract" as the prohibition ceased after the completion of the work. The bills said to have been received in the Head Office were on account of labour

&c. taken from the by the Subovereers carrying out piece below two hundred which were referred to them for execution. I do not fall under the of "Contract Works" or p Contracts" which are in my gift. In the case all such small piece works the Subordinate obtain labour wh procurable and complete them without reference to me drawing bills on the name of the Supplie as is usual in such cases.

2. Beg to explain that under the Standing Ord of the Govt in Public Works Deptt. Road make rials should be collected in the dry season between Nov? or December to June following and they should be spread after the monsoon Sel- in Sept July or August to October or Novembe next following the rule. I collected [illegible]

Sanctioned Estimate r Tumkur Road & Post Office Road. and Sankey Road were sent to you for necessary action on the 4th Dec 01 and that for Avenue Road on the 8th Nov. 01. Nothing was done by you. Kindly explain your delay in this matter

on all the four
referred to before
Even lateride
to be collected after
fall of the rains in
or August. owing
Excavation of this Material
being difficult before the
fall of Soaking rains was
also collected before June/52
This year particularly
I availed myself of the
random. Rains in May/52
and without waiting for.
Monsoons, as usual, issued
orders to my subordinates
to Commence the work of
Spreading materials on
all roads - finding that the
Subovereers Surpeday
delayed work on Trinkan
Road (usually known as
Subadar Chattram Road)
and Sankey road (referred
to in the charge) I issued
Stringent orders on 26.5.52
No 817 that the work should
be started within 3 days
As there were no rains
from May 26th
till about 20 June/52
and there was no Satis
factory Progress of
work

work I again mean, on the ~~above~~ Latter date upon the Early Execution of the Work by using Water.

Thus the Work of Spreading materials on the 12th furlong of Subadar Chattram Road. and 18th furlong of the Sankey road had been Completed, 7th and 8th furlongs of the former and 4th furlong of the latter being on hand.

In the Avenue Road. the Spreading of Material ~~was over~~ in ~~and~~ 2nd furlong was Completed.

The Sanctioned Estimate of the Post Office road was wholly worked out before the End of June.

Thus it will be seen that not only the work of collecting materials as required by the D.P.W Circular was done during the dry season but also the work of the Spreading which should not be undertaken before the

Monsoon

was also attempted
and a good bit of it
was executed during
the dry season. Please
See para 4 of the D.P.W.
Circular. No. 130/18.2.89.
which reads thus.
"That Effective Consolida
tion of new metal and ba
llast can best be secure
by spreading the materi
during the rains is ac
knowledged on all sides
but unfortunately it
so happens that rain
does not always fal
at the right time or is
too scanty and spreadi
is put off until it is
too late to take full ad
vantage of the monsoo
This happened on more
than one road, during
the current year. (Fund)
Another cause is that
often materials have
not been collected in
time for the earlies
rains and the best pa
of the season is lost.
In many such cas
it may be advisable
to postpone the spread

"Spreading
for the year. for when
done too late and water
"ing is scamped, the mate
"rials are practically
"wasted and the surface
"is spoiled. Rather than
"improved")

At this stage I leave it
to the President and
ment to judge
nothing was done. as al
leged by the Vice Presi
dent.

Finding this road to be
in a very bad condition
I provided in the Budget
for 1901-02. for its repair
but the Vice President
struck out the same
Realizing the absolute
necessity there existed
for its repair I saved.
certain sums, out of
other sanctioned Roa
and submitted an Est
mate on 3-1-02 propo
to meet the cost thereof
Viz Rs 933, out of the Sav
but it was kept back
till the commencemen
of the rainy season
When it is difficult to
Collect Quarry Metal

in view of the Viceroy's
et visit to Bangalore.
i order was issued
yon on the 17th June,
902. to start the work
e work on the Race
rse road immediately
ind submit a report
for the progress of work
nce a week - You did
not do so

and sent to me after
sanction on 21/23
immediately after,
for the Contractors
and Station
and asked them
certain Collections
for the road through
not the proper
the Vice President
that no weekly
was sent; but
sent Weekly report. V
my No. 897 D 29-6-02
in which I mentioned
the Contractors wanted V
long time to Collect
Stone metal during that
unusual season, Solicit
orders of the President to
Call for Tenders as per
recent orders; the work
Costing more than Rs 200/
and suggested that one
months time may be
allowed to them

Again on the 1st July last you were directed to make special arrangements to get through the repair of the above road in time and not to cause delay by calling tenders &c

It is in reply to the above weekly report the Vice President directed that the work should be completed before the arrival of the Viceroy and that I should make special arrangements to get

let through it- in time
This is the first time that
ever. I came to know
of the intended visit of the
Viceroy.

the 5th of same month
other order was issued
you to pay particu
attention to the
ree Course Road. Lal
gh Road and Avenue
d with Some other roads
the likely routes
gh which the Viceroy
as expected to pass. Up
13th July 1902, You had
e made. any perceptable
ogress. Whatever in
epair of any of those
d On that date you
e strictly told to put
rder all the above
ads and Submit dia
s reporting progress
work Every day. You
ded to obey this order
d Submit diaries
ily. Explain your

Road up to Distillery
on one side and Basa
vangordi on the other
which do not belong
to the Municipality- was
shown to me on 13 July
02. as being the work
of the Viceroy requiring
immediate repair and
the President directed
verbally that they should
be repaired and Proper
report Submitted to
Vice President- That all
the road had to be repaired
at once. I requested
the President personally
to allow me one or two
Gangs more. but he
replied "if you cant
do it I will find a"
man who can do it
and left me. After
his departure I report
ed to the Vice Presiden
that 28 men Coolies wo
14 women could not
attend to the repair

[illegible]

Your reason for failing to Carry out this order

of so many roads
no appreciable progress
could be shown on each.
Thereupon he
all the permanent Coolies
of the Municipality plus 28
men and 14 women should
be concentrated on one
road at a time and the
roads completed one
after another This
Verbal order was taken
to be the final one. in
respect of petty repairs
and no diaries were
therefore submitted as
work was to go on only
one road at a time
But when the Board
noticed the absence of
diaries, evidently on the
personal representation
of the Vice President
Explanation was
submitted for the al
leged omission and
diary submitted on
18th and 19th July 1902.
Final orders altering
the first programme
and specifying the
roads which lay in the
Viceroys route were
given to me on the 18th

18th July 02 (please see
Copy herein enclosed)
In this order I was re
quired to put all the r
oads thorough
before the End
of the month
but on the
the order
was pa and
into my hands on the
morning of Sunday
the 20th idem without
allowing me time till
the End of the month
to complete the Works.
As already explained
I had started Special
repairs on all roads long
before I knew anything
about the intended Visit
of H.E. the Viceroy. From
the 20th June to 19th July
I carried out the work
of spreading materials
on the following roads
which in ordinary
circumstances would
have taken two months
at least. Till close
of June I received no order
whatever as regards roads as it
is said that repeated orders were
sent.

On the 13th July, no question rose or observation made as to slow progress on roads as alleged

At the End of one week
from date you had
reported only a few yards
of only two roads. Although materials had
been collected some
months before on some
of these roads and Same
revised Estimates sent
you so long ago as
December 1901, I confined
attention to the repair
of the said roads in
spite of repeated
orders regarding them

P T O

Statement showing the Number of furlongs in such road between 20th & 19 July 1902

	Name of Road	Furlongs	Name of	
1.	Jail Road	1st	Rutna	Estimate
2.	Subadar chatram	12th	Saudrajasum Pillay.	Completed
	do	7th & 8th	Soobrayapa	In hand
3	Palace Cross Road	1st	— do —	In hand
4	Race Course Road	4th	Kasinatta & Subrayappa	In hand
5	Sankey Road	1st	Soobanna	Completed
6	Kitty Chetty Chatram Road		V	Completed
7	Golf Road	4th	Rutna	Completed Estimate closed
8	Hospital Lane	1st	do	In hand

when so much was
ally done the Vice Presi
dent states that a few
yards only of only two
Roads have been repaire
by me Immediately afte
the receipt of Suspensio
order I apprehended
that the Vice President
had not correctly inform
-ed the President of
the quantity of Work turn
-ed out by me on dif
ferent roads and re
-quested him on the
very day to inspect
all the roads in com
-pany with an Engineer
in view to enable him
to ascertain personally
whether I had not over
strained to arrive
at this result — Un
fortunately my reques
was not granted
and I was made to
suffer for no fault
of mine.

When the Contractors
Executed the Work
Contractor Concerned noted against C.

to begin the work at
all in earnest with
the apparent intention
of hampering the work
at a critical time
Explain you reasons
for doing so

in the
and
offered Speci
ments to expedite
progress of work, it
is not clear how the
authorities allege
that I never asked
the Contractors concern
ed to begin work at
all in earnest and
have apparent Lipten
tion to hamper work
at a critical time
could be attributed
to me in justice
I do not know what
letter is herein referre
to. No peon of the Muni
cipal office brought
to me a letter which
I failed to receive
nor have I received
any such letter by
post. The wording
of this charge shows
that it relates to
a period subsequent
to the date of Suspensio
and it is for the Comm
ission to

Why have you failed
to receive a letter
sent to you by the
office peon and af
terwards posted to
you. although you
have been residing
in Bangalore

how this could be pre-
-ferred as a charge in
support of suspension

In conclusion I res
pectfully beg to sub
mit that I put in
a service of nearly
22 years in the Mysore
State D.P.W during
which period I served
under several Engineers
who all invariably
bore a good testimo
-ny to my profession
al qualifications an
management in all
branches of Engineering
wide printed statement enclosed.
After joining the
Municipality in May
1898. I served nearly
4 years and two months
mostly during the in
cumbency of the Pres
dentships of Mr. Le
nard who was a

25-8-1902

The Secretary to the Govt of Mysore

General and Revenue Depts

Bangalore -

Respected Sir

I humbly beg to submit that my service in the Municipality as Executive Engineer extends over more than four years, during which time I rendered entire satisfaction in the discharge of my duties to the successive Presidents under whom I served, as the accompanying Copies of certificates marked D, would show.

2. On the very first day on which I met the present President he seemed prejudiced against me I therefore addressed him a note asking for an interview to enable me to explain the difficulties I have been labouring under

under and to obtain redress, but he was not pleased to give me a reply.

2. A kind perusal of my memo to the President (a copy of which is herein enclosed) especially of my letters No 1 (vide margin) to the Vice President would show that I repeatedly brought to his notice the urgent necessity there existed for the repairs of roads and provided for them in the annual Budgets I submitted. But the provisions were struck out and no notice taken of my repeated representations. Moreover payments were invariably delayed for works executed. For instance I brought to the notice of Government about two years ago that the delay in issuing a wall around the Christian burial ground was due to non-payment of money due to the Contractor for work done by him. Ever since bills were submitted from time to time as the work progressed, but payment was made for only one bill for a small amount holding back an immical reserve at 25 Per cent and all the other bills still remain to be paid. Notwithstanding this I pushed on the work to completion. Thousands of Rupees are still due to him and other Contractors. When obstacles

No 535 d/31-1-
No 294 d/9-10
No 761 d/1-4.
No 799 d/14 5

are thus interposed thrown in my way
I leave it to Government to judge as to how
works could be got through expeditiously
Moreover about six months ago the only
accountant of the Office and the only
Overseer borne on the Establishment
were taken away for employment
elsewhere so as to leave their work to be
done by me with the help of four labourers
who are mostly illiterate and incompetent
and of no use to me

4. It was ordered verbally by Govt
the Viceroys route up in order on the 13th
July and formally on the 17th Idem
modifying the original route. only
two days after viz on the 19th Idem the
President passed an order suspending
me from Office though the work of
repairing roads was in full swing at
the time and that would have been re
before the fair time as materials had
been collected and competent Contractors
employed on all of them leaving only
trifling to be done subsequently.

5. Though the appointment and
removal of the Executive Engineers
with the Government, yet I, instead of
appointing,

the order submitted my explanation to the President on the very day (20th of July/02 bringing my notice my grievances and praying for a reconsideration of the order passed by him, but no reply was vouchsafed to me though a month has expired since that date

6. As I am kept out of Office for no fault of mine and difficulties are thrown in my way in the execution of works as the Copies of my explanation to the President, and the Plans accompanying the same, hereto attached, would show I beg that the Government will be pleased to hold an enquiry into the matter and pass such orders as my hard case deserves at an early date.

I beg to remain

Respected Sir,

Your most obedient Servant

M C Chengalvaraya Nayudu

Copy of remarks made in the Service Register by Mr Leonard, President City Mr Commissioner, Bangalore

This officer served under me as Executive Engineer in the City Municipality from May 16th to date of my transfer. He gave me great assistance and I only regret that I had not an officer of his ability to help me when I joined the Municipality in 1896. He is active, truthful and honest and is capable in every way. I only regret that his worth was not valued as it should have been by a far higher salary.

(Signed) T. T Leonard

Remarks made by Mr Pochkanawala President in the Service Register

I have much pleasure in testifying to the good work done by Mr Chenulwasa Naidu, Mr Engineer during my term of office as Deputy Commissioner & President of the City extending over

Contractor's work without noting
time too when Plague was at its worst
He converted the Municipal Park into
a beautiful place fit for recreation
He responded cheerfully to the urgent
calls from Nagar Camp I considered
him an honest hardworking Officer
and at my recommendation he was
confirmed in his post on full salary.

Bangalore
20th July 1902.

& with a
ms and file
marked with it

To

The Deputy Commissioner and
President City Immunicipality
Bangalore

Sir,

In acknowledging the receipt on Sunday, the 20th July 1902, of your order No. A. of 19th Instant, suspending me from duty for (1) unsatisfactory state of working, and (2) disobedience to orders, I beg to submit, with reference to the 1st charge, that verbal orders were given by me on the 13th Instant, and formal orders on the 17th, allowing the 1st progr and specifying the roads through which the Viceroy would pass on the occasion of his visit to Bangalore. In obedience to verbal instructions, I employed Contractors, who are generally unwilling to take up work under the Immunicipality, owing to delay caused in making payments, promissory notes that I

appreciate their services in a special manner, and thus collected materials and turned out in 7 days (from Sunday 13th to Saturday 19th) as much work as would require ordinarily at least one month, a fact which any Engineer would bear testimony to. I therefore beg that you will be so pleased as to inspect in Company with any Engineer the roads which have been repaired, and ascertain whether anything more could have been done in this unfavourable season when it is by experience found impossible to collect metal, with the men and means placed at my disposal and whether what remains to be done cannot be completed with the additional gang, the employment of which you have been pleased to sanction, yesterday. I have already repaired the worst portions of the Viceregal route and there is nothing much to be feared at the remaining portion being done in time.

2 As regards the charge of

disobedience

disobedience the verbal orders were to send diaries to the Vice President, noting the roads inspected and progress made on each - An hour after i.e as soon as he left me. I consulted the Vice President as to how works could be pushed on all roads with the scanty number of coolies at my disposal; I had at the time only 4 men and two women allowed on each of the 7 Divisions of the City containing about 80 miles of road, in 250 streets and so and I asked his permission to entertain more coolies with a view to push all the works in full swing - He decided that all the men in different Divisions should be concentrated, and push on one road and then surface repairs should be completed of all the roads one by one this order I thought cancelled the 1st as it did not occur to me that it should be sent for all other roads as can to confine to one road only at a time But when the non-receipt of diaries was noticed on the 17th as an enquiry I explain

the above circumstance on that date as the work done till then, and submitted diaries on the 18th and 19th instant.

3. Under the foregoing circumstances I beg that you will, after satisfying yourself of the correctness of the above facts and the disadvantages I have been laboring under, as the accompanying affidavit would show, reconsider the order passed against me. I have always worked hard, honestly with zeal, as has been testified to by your predecessors, true copies of which are endorsed in the margin of the enclosed memo. If I were allowed I feel quite sure that I shall be able to complete the work in time.

I beg in conclusion to submit that apprehending such a result in the present state of affairs, I requested you by a special note dated 5th June last that I may be given an interview for half an hour with a view to present the enclosed memo and to explain matters in person, but I regret that it had not pleased you to grant me one. I had therefore no opportunity to lay before

you

you as to how matters were situated
so far as I am concerned - you will
therefrom see Sir, that I had been
given a position of great responsibili
ty as an Executive Engineer of this the largest
Municipal City in this Province, without
the powers that are conferred even on
an Upper Subordinate of the D.P.W, entirely
and completely dependant on the City
Vice President for everything, from the
smallest to the highest of work in my
department, a position as I had submitted
as being altogether anomalous. I have
all along alleged that it is likely to
inflict in course of years immense
permanent loss to the Municipality

I may remain,

Sir,

Your most obedient Servant

(Signed) [illegible]

Explanatory Memo. re (12) Bad State of roads in Bangalore City

respectfully beg to explain that every year I submit a list of works which have to be provided in the Annual Budget with reference to the actual Condition of each road &c., but the Vice President, with a view to bring discretion in, would only include such of the works as he liked and omit others on his own responsibility without consulting me as regards their urgency which from personal inspection I only know well.

Following this practice I provided in the Budget for 1901/02 for special repairs costing Rs 37,228/- of several important roads which were in bad condition owing to the stoppage of road repairs from the beginning of 1901 but the Vice President omitted provisions for all the roads enumerated in appendix A and retained only those for minor roads at a cost of Rs 21,072/- I was not aware of this reduction till the Budget had been received sanctioned by Government further reduced to Rs 15,000/- After I came to know that some of the roads, badly in need of repairs were omitted in the Budget, I made certain proposals for the repair of some of them but they were not heeded. I may quote the following

(1) As regards
stated both in writing and personally
to the Vice President of the necessity
for the immediate repair and Sub-
mitted an Estimate therefor. But it
was simply returned to me. On
my representation to the President
he kindly inspected the road and
directed the Submission of an Estimate
for its repairs. When the Estimate
was accordingly submitted to the
President who also spoke to the Vice
President about it, nothing was
done. After all I was called upon
by the Latter Officer to remove the
Collections I had made for it to
another road. I did so with a pro-
test for which I was snubbed.

(2) When I submitted an Estimate
for the repair of Malapélé Road,
struck off from the Budget, and
proposed to meet the cost from
Savings effected from other works
the Vice President returned it to
me, with a remark that no pro-
vision existed for it in the Budget

(3) On 3d January 1902. I submitted
an Estimate for Special repairs
of Race Course Road (also omitted

from the Budget) from
others. Estimates it has months
been received sanctioned only 3 days
back when nothing can be done. as
in the commencement of the rains
stone quarries cease to be worked
and no metal nor carts can be had
during the present ploughing and
sowing seasons To avoid such
inconvenience the Mysore State
Public works Department Collect
materials for 6 months from Decem
ber to May and spread them in the
Subsequent six months - In such
matters it is submitted that my
suggestions are not heeded and I
am only snubbed if I venture to
make them.

2 The roads in the western Extension
measuring about 10 miles have been
added on to the Municipality, but
no corresponding increase of road
maintenance was allowed therefor.
But on the contrary the
outlay for road maintenance
is being cut down as
shewn in the margin.
This accounts chiefly for
the deterioration of the
City roads.

Year	Amount Spent
94	22,578/-
95	16,729/-
96	13,169/-
97	14,920/-
98	12,260/-
99	4,784/-
00	6,730/-
01	17,269/-

vide Remarks. Entered by Mr Pottana *.
Chetty President in my Service Register
Copied in the margin

The present Vice President has allowed them to fall into disrepairs again by stopping the employment of temporary gangs of Coolies since 1901, for which I cannot be held responsible for I have repeatedly brought the matter to notice Vide Copies of my reports on the Subject hereto attached.

* I have much pleasure in testifying to the good work done by Mr Chengalvaraya Naidu, Municipal Engineer during my term of office as Deputy Commissr and Vice Chairman of the City Municipality extending over more than two and half years. He brought the roads into very good order and took charge of lighting at the time when the Contractor had struck work without notice & time too when plague was at the doors. He converted the Municipal park into a beautiful place fit for recreation. He responded cheerfully to the urgent calls from Nagadi Plague Camp. I consider him an honest hard working officer and at my recommendation he was confirmed in his post on full Salary

Signed K. Pattana Chetty
Dy Commrs

I beg to add that the Number of assistants allowed to me for Executive work is hardly six and these are mostly illiterate and the office Establishment is also inadequate - The Overseer and the Accountant attached to the Establishment were transferred Elsewhere 4 or 5 months ago and no qualified men given me as yet in their stead In absence of proper aid, I am obliged to work as a clerk, Munshi, and Accountant in the office, and as a Surveyor, Sub-overseer, and Overseer &c in the Executive branch.

7 I respectfully beg to add that, as soon as each President assumed charge of the Municipality I have had to struggle against the disadvantage of disparaging representations by the Vice President; I have been fortunate enough till now that the President by Personal Experience came to find that I am a hard working and honest Subordinate - This no doubt to a certain extent had the effect of hardening work in the Department Thus when Mr. Venkata Varadiya first took charge of the office of President he was made to understand that I had not been doing my work

Memo showing the powers exercised by an Executive Engineer of the Provincial P.W. Department, with the object of raising my powers to the same standard, but unfortunately he left the Department before he was able to do what he wanted to do. My memo with his opinion thereon is appended. appendix C

⊕ Marked A/9 at page 39 of Book containing Mr. Venkata Rao's Memo dated 14/6/01.

& the marginally noted remarks entered in my Service Register by Mr. Leonard and a Copy of letter written by Mr. Venkata Varadaiyar Contain favorable opinions of Presidents under whom I served for upwards of 4 years. in the Municipality not withstanding the obstacles thrown by the present Vice President in the way of my progress he invariably delays making payments to Contractors so that the works may suffer — Some of the bills submitted from time to time since 1898 are still pending payment & Contractors threaten

He gave me great assistance and I only regret that I had not an officer of his ability to help me when I joined the municipality in 1896 — He is active, truthful, and honest and is capable in every way I only regret that his work is not valued as it should have been by a fat high Salary. threaten to take action against me. but the Vice President does not take notice of representations made by me. on the subject from time to time - This is one of the important causes for Contractors hesitating to take Contracts in the municipality.

9 - The Vice President has been apparently bent upon getting a Subordinate Officer of the rank of an Overseer, in lieu of an Executive Engineer. Other Presidents hitherto were of opinion - that thus will be altogether detrimental to the Engineering portion of the municipal work.

They even took into consideration the status accorded to the Executive Engineer in the Sister Municipality of the Civil & military station - Whatever may be the idea and motives of the Vice President I have had the misfortune of being disparagingly mentioned to Presidents as already observed - I make this representation with due deference. & respect that it may please you to judge me as you find and not as I am represented by others

No 535 / Submitted

To

The President,
City Municipal Council

Has the honor to bring to notice that the provision under Sub-Head materials &c. of the main Head - "Repairing Roads" has been exceeded by Rs 3773/- up to close of last month owing to extensive repairs carried out during the visit of His Excellency the Viceroy and Governor General of India to Bangalore. The provision made under this Sub Head. Every year has been found to be inadequate as can be seen from the memo attached. The undersigned would therefore suggest that the provision under may be permanently raised to Rs 1500 If this cannot be done for want of funds all works on, [illegible]

be stopped now. and the roads will then become untrafficable

As the Municipality now collects wheel taxes it will become responsible for the damages the residents of the City may sustain

Early and definite orders are solicited as to whether the repairs are to be stopped or funds will be given to continue the repairing of roads. During last year the Excess over the Budget Provision has been nearly 4000/- during this year. it may go up to Rs 10,000/- if repairs are ordered to be continued

The President
City Municipal Commission

Dated 9th October 1901

This order was started as per or-ders of the Vice President who was taken and shewn the state of roads owing to stoppage of works for 2 or 3 months, the roads were damaged to such an extent that their repairs would now come to about Rs 30000/- whilst about Rs 2000/- were saved. If I am not to be responsible for the condition of roads I will not trouble the Pre-sident.

Since we now levy wheel taxes the rate payers are liable to sue for damages. and if I am called on to explain at that stage I would have nothing else to state

In a town like Bangalore road repairs cannot be stopped for even a day- The Conservancy

would be got to carry out Miscel
laneous works for filling a hole he
removing a stone there, Smashing
metal dropped up - re tamping heavy
portions, here and there, - Gravelling
and Sanding the roads. throughout
the year here and there, and that
Again and Again, and that in one
and the same place. The Contractors
will have to maintain Costly Es
- tablishments to Exact work from
the Coolies Scattered all about
the Town, of course without the
help of the Sub Overseers who will
only see that good work is done
and not Exact work from Coolies
of the Contractors in that Case.
I beg therefore a Committee
with 2 or 3 Engineers may be
appointed to Enquire into the
details of the working of the Pub
lic Works Department and to
arrive at some Conclusion

No 721 Dy 1st April 1902 (55/27 A/T)
To

The President
City Municipal Commission

Sir.

I have repeatedly brought to your notice that owing to the removal of temporary Jangs all the roads have fallen into disrepair In my No 294 Dy 9th Oct 1901. I have stated that whilst about Rs2000/- were saved by stopping two Rs on roads, they were damaged to an extent of Rs 30,000/- The present general state of all roads in the City is anything but satisfactory, Especially portions of avenue, Maternity, Post Office, Club, Race Course, Sabdar Shutrum and Hospital Lane roads will become impracticable ere long - The road in the busy localities of the City

ery miserable Condition
have said in the letter above cited
enough about their state. The
Dewan Bahadur also observed
that the state of the roads was
bad and he is evidently not aware
that all works are stopped on
roads.

I request that permission may
now be granted to start surface
repairs of all roads. There are
Seven Divisions and a number
of roads in Each Division, I
have now distributed at the
rate of 4 Coolies to Each Division
on an average, from the perma
nent Gang, If at least 10 more
are given to Each Division. I
will strain every nerve to
improve the Condition of the
roads. which would become
worse if the repairs are
neglected now.

2 Has power to allow Similar drawing accounts to his assistants and Upper Subordinates and to allow Imprests to lower Subordinates after obtaining Sanction from the Chief Engineer

N.B. Even a Mistry in the P.W.D has power to make payments when ever there are difficulties - In the Municipality no payments can be made by any body except the President & other Engineers in the Bangalore City make prompt payment to Coolies and Contractors who resort to their Works and

municipal engineer having that he had. powers which to enable him on with his soon, he asked to up a memo this is the st.

I am to be ved in an or so, I leave for my duc or I think ye. Engineer uld have ne of these wers.

J. B. V. President 14. 6. 1901

I kept this me, with view of con ting the Exe neer of the trict, but could him time to them

J B V 6/01

and refuse (?) to take up works in the Municipality, lest they should be made to wait for payments for months, if not for years. Sometimes Certain works have to be Carried out the very moment they are ordered - Owing to non payment or delay in payment Urgent works suffer and the Engineer is held responsible for the delays.

3. Has power to call for tenders by publishing advertisements in the Gazette and to let out works on Contract up to (5000) five thousand Rupees. - For works Costing above 5000 Rupees Calls for tenders and Submits them to the Chief Engineer with his recommendation for approval

4 He Submits his account to the Examiner of accounts who points out. all irregularities agreeably to Rules - His account are periodically checked by the

assistants Examiner (4) or by the (3) Examiner. assisted by trained accountants

N.B In the Municipality the accounts are checked by Commissioners who do not know P.W accounts and dictate wrong and impossible things to be done Remonstrances are put down. for the Subordinates Here the lies the hitch in the Municipality – Unless Trained Accountants check and audit the accounts, it is simply impossible to give satisfaction to Commissioners who Compose the audit Committee and whose orders are Conflicting with one Another – this is a point requiring immediate Remedy.

5. The Executive Engineer in the P.W.D is required to submit accounts according to Codal forms.

N.B. In the Municipality there is no System of accounts – The Commissioner prescribe tabulated Statement as they like which are

(31) not Easy to render. Each Commissioner wants something to be done according to his own views - Unless Codal Forms are introduced nothing can be done Satisfactorily

6. Has powers to Sanction Estimates up to 500. This is a great facility for Carrying out works immediately they are ordered The present System of Sanctioning Estimates in the Municipality takes Some weeks. if not months to start urgent works. Here again the Executive Engineer is blamed.

7- Appointments and dismissals of officials drawing a Salary of written Rupees twenty rest with the Executive Engineer - He can according to Circumstances Suspend, fine up to one months pay and stop allowances of higher Subordinates and officials This helps Maintaining discipline

8. Has powers to collect all road materials required for the ensuing year during the previous year

N.B. In the Municipality it is

is not the case, after receiving sanction to the Budget during September or October of each year, Collections of Road materials have to be made. thereafter and materials spread after the cessation of rains. This is a nuisance and a very unsatisfactory way of carrying out Road Works. Further there is no maintenance allowance for each road. only a few furlongs of certain important roads alone are provided in the Budget to be recoated with metal or gravel and the Executive Engineer is held responsible for maintaining all roads in Satisfactory Condition without any provision for their up-keep. This rule is very hard upon the Executive Engineer and a main point to be taken into Consideration

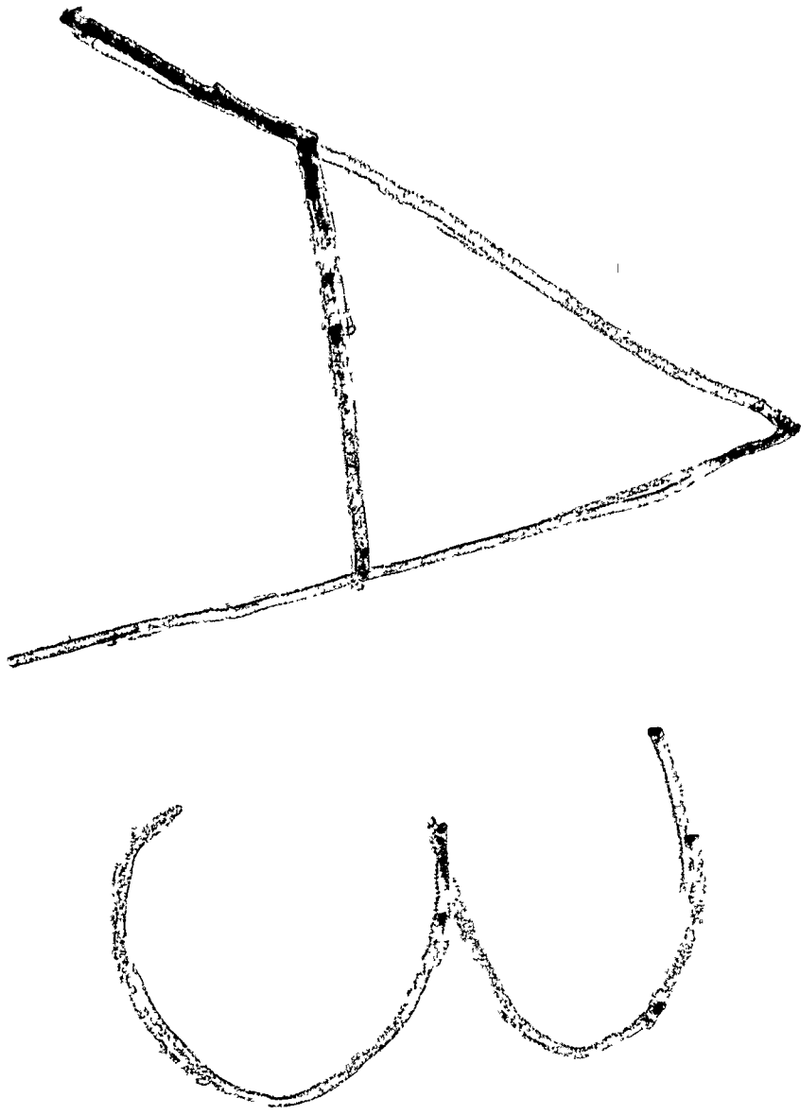
When provision are made for repairing all bad roads they are struck off for want of funds. holding Still the Executive Engineer responsible for their bad condition.

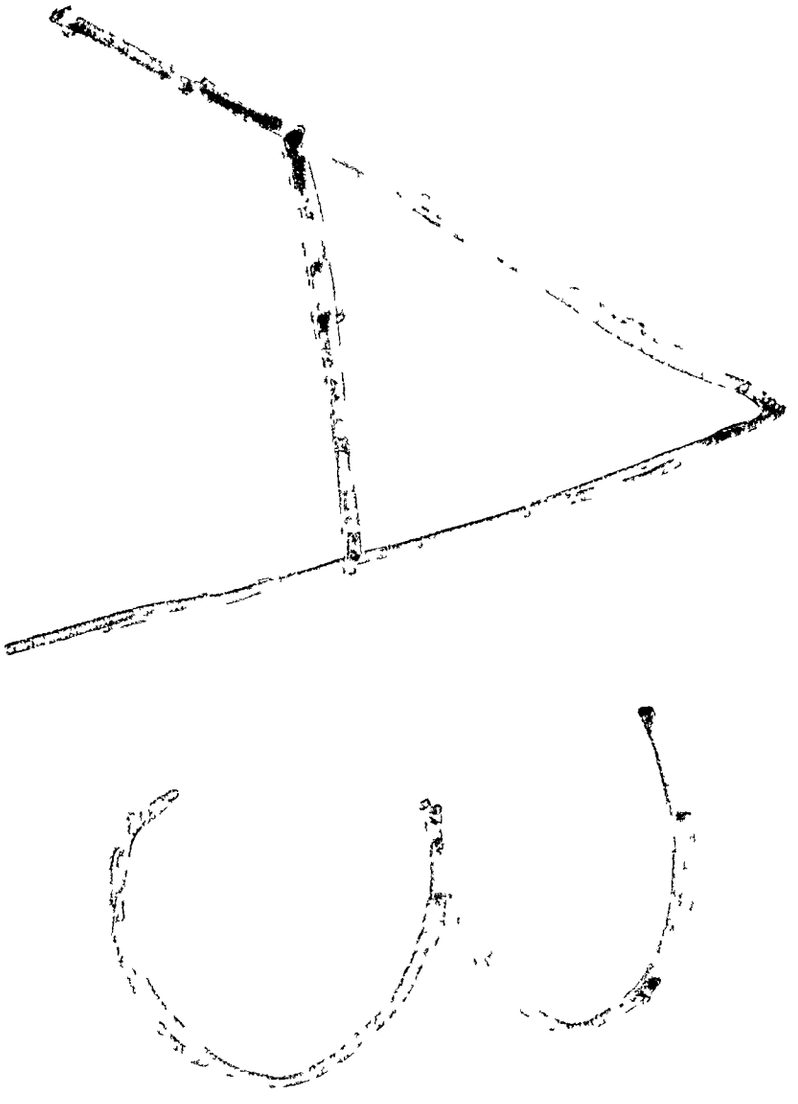
Sufficient tools and plant are not available in stores. In all towns fire Engines and other Mach

and a dozen (44) water Carts must be available. Suggestions on these points receive no consideration whatever

The staff allowed is very small comparatively to what is allowed to the Engineer of the Station Municipality who has lighter work - This will be explained in person.

Signed P.C. Chengalvaraya Naidu
Municipal Executive Engineer





framed
Charges by the President

Subsequent to the receipt of the
ernment Order No.15497-98/L.F.29-
dated the 20th May 1901, conveying
ong displeasure on account of seri
s neglect and culpable delay on
r part in connection with the con-
uction of the compound wall around
new christian Cemetry,

Explanation of the Municipal Engineer.

(1) The delay in the progress of the Cemetry work, for which I, as well as the Vice President, was found fault with in the Government Proceedings dated 20th May 1901, was chiefly due to nonpayment to contractor for years together on account of works executed by him to the Municipality. That even subsequent to the ~~order~~ above Government Order, no attempt was made by the Vice President to make prompt payments for the works executed by the contractor; for instance, in the case of Cemetry work, one bill submitted on 9th May 1901 for Rs. 1408-13-0 was not paid in due time and after a month and a half another bill was submitted on 19/6/01 for Rs.1099-0-0, which was not also paid immediately; but both were paid in August 1901 after a lapse of 3 months from the date of the first bill, holding back unusually a high rate of 25 per cent on the aggregate amount of the bills as reserve. Two bills submitted so far back as December 1901, and May 1902, for the aggregate sum of Rs. 3532-0-0 have not been paid up to date. Besides these the work executed since, costing upwards of

Rs

Rs.1000/ has not been measured for want of estimate (for Cemetery work) copy of which was not furnished to me, notwithstanding repeated written requisitions made therefor to the Vice President for carrying out the work; although the estimate was sanctioned more than a year and a half back In spite of these difficulties, systematically thrown in my way, the work was pushed on to completion, producing everything from memory, waiving all my responsibility for any difference in the details of the work. Up to date copies of the estimate and plan have not been furnished to me to close the estimate and to adjust the claims of the contractor which are very heavy. It is respectfully submitted for the consideration of the President and the Government how any subordinate in my position can show satisfactory progress in the execution of works and how delays can be avoided under the circumstances above set forth.

Requesting to report about your conduct at the end of December 1901.

2. The reason why the Vice President delayed the submission of the report due on 1-1-02 for over 7 months is not apparent. A copy of the favorable opinion recorded by Mr.B.K.Venkatavarada

Iyengar on 28/1/02 nearly a month after the date fixed for the submission of the report, as well as copies of testimonials granted by the former Presidents, Messrs T.T. Leonard and Puttanna Chetty are also appended for kind perusal.

Copy of Mr.B.K.Venkatavarada Iyengar's letter Dated 28/1/02.

(a) "Dear Sir,

Pardon me for writing on your letter; I do so to save reference. I can certainly say that when a good deal had to be done by way of mending the roads &c on the occasion of H.E.the Vice roy's visit to Bangalore, you carried the work with commendable zeal and I am thankful to you for having completed all the work given you so well and in good time

Yours truly
Sd.B.K.Venkatavarada Iyengar

(b) Copies of remarks made by Mr. T.T.Leonard in service register.

"This officer served under me as Ex: Engineer in the City Municipality from May 16th to date of my transfer. He gave me great assistance and I am only regret that I had not an officer of his ability to help me when I joined the Municipality in 1896. He is active, truthful, and honest and is capable in every way. I only regret that his worth was not valued as it should have been by a far higher salary.

Sd.T.T.Leonard".
12/1-00

(c) Copy of remarks made by Mr.Puttanna Chetty in service register.

(e) "I have much pleasure in testifying to the good work done by Mr.Cengalvaraj Naidu, Municipal Engineer, during my term of office as Deputy Commissioner and President of the City Municipality extending over more than 2 years. He brought the roads into good order and took charge of lighting at a time when the contractors had struck

struck work without notice, a time too when plague was at its last. He converted the Municipal Park into a beautiful place fit for recreation He responded cheerfully to urgent calls from the Magadi Plague Camp. I considered him an honest, hardworking officer and at my recommendation he was confirmed in his post on full pay salary

Sd.B.Puttanna Chetty
27/1/01."

You were ordered on 11/5/01 not to entrust Kasinath Mangala Prasad, Contractor of the said compound wall, any other Municipal work till he completed that work.

In spite of the above order you did give other works to Kasinath. and therefor when bills were received in the Head office you were asked on 11th April 1902 to submit a list of all the works given to Kasinath in disobedience to the above order and to explain your conduct in the above matter. You did not submit the list and did not give your explanation— A reminder was issued on 10th May 1902 - It was not also heeded. And then strict order was issued on the 19th to submit your explanation before the 20th May 1902. You did not obey it also. Thereupon Mr.Narayan Row the former President recorded his note of displeasure for insubordination and disobedience of

3 In this memo of charges the Vice President says that I was ordered not to give any work or contract to Mangal Prasad, subsequent to the Government Order dated 20th May 1901, but according to the date of his order viz, 11/5/01, as quoted by him, it was nine days previous to Govt: Order. This is apparently inconsistent.

4. It is submitted that I gave Kasinath no other contract work not even petty contract.

5. The fact that no work was given on contract to Kasinath was explained at length in my detailed letter No.815 dated 23rd May 1902 and therefore no lists were submitted I beg to request that the Vice President may be asked to submit the above letter inoriginal which will prove that the statement of the Vice President that no explanation was submitted in spite of reminders for which no numbers are given and which find no place on those days in the Registers maintained in the Engineer's office, is not borne out by

5, Explain your reason delay in answering these renders.

Omit Head office to type at page 2 & 17

2/ Sanctioned estimates for Tumkur ad-Post office road and Sankey ad were sent to you for needful sion on the 18th December 1901 l that for Avenue road on the 8th ember 1901. Nothing was done b u till June 1902. Explain your

change ⊖ govt

facts- Moreover, long before 11/4/02 when the Vice President questioned me as to why any contract work was given to Kasinath, the cemetry work had been completed (Vide my report No.808 dated 19th May 1902, a copy of which is herewith sent) and I could have justified my action of any work had been given to the man on "contract" as the prohibition ceased after the completion of the work. The bills said to have been received in the Head office were on account of labour &c taken from the contractor by the suboverseers for carrying out piece works below ~~below~~ two hundred rupees which were referred to them for execution. They do not fall under the category of "contract works" or "petty contracts" which are under my gift. In the case of all such small piece works the subordinates obtain labour wherever procurable and complete them without reference to me drawing bills on the name of the supplier as is usual in such cases.

5/ I beg to explain that under the standing order of the Govt. in Public Works Department, Road materials should be collected in the dry season between November or December to June following and they should be

spread

your delay in this matter.

spread after the monsoon viz, July or August to Octo November next. Following this r I collected materials ~~materials~~ all the four roads referred to before June 1902 . Even laterite which used to be collected after the fall of the rains in July or August owing to the excavation of this materials being difficult before the fall of soaking rains was also collected before June ~~June~~ 1902.

This year particularly I availed myself of the random rains in May 1902 and without waiting for monsoons, as usual, issued orders to my subordinates to commence the work of spreading materials on all roads. Finding that suboverseer, Sun-jeevappa delayed work on Tumkur road (usually known as Subadar Chutram road) and Sankey road (referred to in the charge) I issued stringent orders on 26/5/02 No.817 that the work should be started within 3 days. As there were no rains from May 26th till about 20th June 1902 and there was no satisfac-tory progress of work, I again insisted on the latter date upon the early execution of the work by using water &c. Thus the work of spreading materials on the 12th furlong of Subadar chatram road and 1st fur-long

furlong of the Sankey road had been completed, 7th and 8th furlongs of the former and 4th furlong of the latter being on hand. In the Avenue road the spreading of materials in 2nd furlong was completed.

(b) The sanctioned estimate of the Post office road was wholly worked out before the end of June 1902. Thus it will be seen that not only the work of collecting materials as required by the D.P.W circular was done during the dry season, but also the work of the spreading which should not be undertaken before the monsoon set in was also attempted and a good bit of it was executed during the dry season. Please see para 4 of the D.P.W. Circular No.13 dated 18th February 1889 which runs thus.

(c) "That effective consolidation of new metal and gravel can best be ensured by spreading the materials during the rains is acknowledged on all sides but unfortunately it so happens that rain does not always fall at the right time or is too scanty and spreading is put off until it is too late to take full advantage of the monsoons. This happened on more than one road, during the current

In view of the Viceroy's last visit to Bangalore an order was issued to you on the 17th June 1902 to start the work on the Race Course road immediately and submit a report for the progress of work once a week- You did not do so.

current year. And anot that often materials have collected in time for the earl rains and the best part of the season is lost. In many such ca it may be advisable to postpone the spreading altogether for the year, for when done too late and watering is scamped, the materials are practically wasted and the sur-face is spoiled rather than improv-ed."

6(d) At this stage I leave it to the President and Government to judge whether nothing was done as alleged by the Vice President.

4 Finding this road to be in a very bad condition I provided in the budget for 1901-02 for its repairs but the Vice President struck out the same. Realising the absolute necessity there existed for its repair, I saved certain sums out of other sanctioned roads and submitted an estimate on 3rd January 1902 proposing to meet the cost thereof Viz, Rs.933, out of the savings but it was kept back till the commencement of the rainy season, when it is difficult to collect quarry metal and sent to me after due sanction on 21/23 June 1902. Immediately after I sent for the contract of

This was exactly a week after the date of receipt of the enclosure to Govt.

Change Civil &c.

Again on the first July last ou were directed to make special rrangements to get through the epair of the above road in time nd not to cause delay by calling enders &c.

On the 5th ~~5th~~ of same month nother order was issued to you pay particular attention to the ce Course road, Lal Bagh road and other enue road with some roads a s the ikely routes through which the ceroy was expected to pass. Up to 13th of the City and Station Municipali-ty and asked them to make certain collections specially for the road though it was not the proper season-the Vice President says that no weekly report was sent, but I have sent weekly report, Vide my No.897 dated 29th June 1902 in which I mentioned that contractors wanted very long time to collect burnt stone metal during that unusual season, solicited orders of the President to call for tenders as per recent orders, the work costing more than Rs.200/ and suggested that one months time may be allowedto them.

8 It is in reply to the above weekly report the Vice President directed that the work should be completed before the arrival of the Viceroy and that I should make special arrangements to get through it in time. This is the first time that ever I came to know of the intended visit of the Viceroy.

9 Roads up to Distillery on one side and Basavangudi on the other which do not belong to the Municipality were shown to me on 13th July 1902 as being the route of the Viceroy requiring immediate repair and the President directed verbal that

13th July 1902, you had not made any porceptable progress, whatever, in the repair of any of those roads On that date you were strictly told to put in order all the above roads and submit diaries reporting progress of work every day. You failed to obey this order and submit diaries daily. Explain your reason for failing to carry out this order.

that they should be repaired and progr
report submitted to Vice Preside
As all the roads had to be repai
ed at once, I requested the Presi
dent personally to allow me one or two Gangs more but he replied "if you cannot do it I will find a man who can do it" and left me. After his departure I explained to the Vice President that 28 men - coolies with 14 women could not attend to the repair of so many roads and no appreciable progress could be shown on each. Thereupon he directed thatall the permanent coolies of the Municipality viz, 28 men and 14 ~~coolies~~ Women should be concentrated on one road at a time and the roads completed one after another. This verbal order was taken to be the final one in respect of petty repairs and no diari were therefore submitted as work was to go on only one road at a time. But when the President noticed the absence of diaries, evidently on the personal representa -tion of the Vice President, expla -nation was submitted for the alleged omission and diary submitted on 18th and 19th July 1902. Final orders altering the first programme and specifying the roads which lay in the Viceroy's route

were

Encl 2 to 17 July
1902 Copy of Engineer

Encl 3 to
letter dated 29th July

to
14/K At the end of one week after
hat date you had reformed only a few
ards of only two roads. Although ma-
erials had been collected some
onths before on some of these roads
nd sanctioned estimates sent to
ou so long ago as December 1901.
ou failed to attend to the repair
f the said roads in spite of re-
eated orders regarding them.

were given to me on the 18th July 1902 (please see copy herein enclosed) In this order I was required to put all the roads into thorough repairs before the end of July 1902 but on the following day the order of suspension was passed and put into my hands on the morning of Sunday the 20th Idem without allowing me time till the end of the month to complete the works. On the 13th July no question rose or ~~objection raised~~ observation made as to slow progress on roads as alleged now. As already explained I had started special repairs on all roads long before I knew any anything about the intended visit of H.E. the Viceroy. From the 20th June to 19th July I carried out the work of spreading materials on the following roads which in ordinary circumstances would have taken 2 months at least. Till close of June I received no order whatever as regards roads as it is said that repeated orders were sent.

Statement showing the number of furlongs recoated on each road between 20th June and 19th July 1902.

Name of road.	Furlong.	Name of contractor that spread materials.	Remarks.
1. Jail Road	1st.	Rutna Mudliar.	Completed. Estimate closed.
2. Subadar Chatram.	12th	Sundrarasam Pillay.	Completed.
3. Do	7th & 8th	Soobroyappa.	In hand.
4. Palace cross Road	1st.	Do	Do
5. Race course Road	7th	Kasinath & Subroyappa.	Do
6. Sankey Road	1st.	Soobanna	Completed.
Kith Chetty chatram road	4th	Veerchickayya	Do
Golf Road	7th	Rutna Mudliar	Completed. Estimate closed.
Hospital lane	1st.	Do	In hand.
Bale Petta Road	4th.	Sandrasam Pillay.	Completed.
Crescent road	1. 2. 3.	Soobana	Completed and estimate closed
Kotrai Lane	1st.	Rutna Mudr.	Completed. Estimate closed.
Taluk Kutchery road.	4th 5th	Kasinath	Completed and estimate closed
Coorboor Pete	1st.	Do	Completed.
Post Office Road	6th 7th	Yellappa	Completed, Estimate closed.
Korchur Polya	½	Muniappa	Completed.
Fort Circle road.	1st.	Soobanna	In hand
Ranganacherry	1 2	Mooniappa	Completed.

Abstract taken

1 No of roads on which work was undertaken 17

2 No of furlongs - do - 24½

3 Do furlongs on which work was completed 18½

4 do on hand - 6

10 When so much was actually done, the Vice President states that a few yards only of only two roads have been repaired by me. Immediately after the receipt of suspension order, I apprehended that the Vice President had not correctly informed the President of the quantity of work turned out by me on different roads and requested him on the very day to inspect all the roads in company with an Engineer in view to enable him to ascertain personally whether I had not overstrained to arrive at this result. Unfortunately my request was not granted and I was made to suffer for no fault of mine.

11 When the contractors executed the works noted against each in the foregoing statement and some were even offered special inducements to expedite the progressof work, it is not clear how the authorities allege that I never asked the contractors ~~contractors~~ concerned to begin work at all in earnest and have apparent intention to hamper work at a critical time, could be attributed to me in justice.

12 I do not know what letter is herein referred to. No peon of the Municipal office brought to me a letter which I failed to receive nor have I received any ~~any~~ such letter by post. The wording of this

clause

charge shows that it relates to a period subsequent to the date of suspension and it is for the consideration of Government how this could be preferred as a charge in support of suspension

13 In conclusion I respectfully beg to submit that I put in a service of nearly 22 years in the Mysore State D.P.W. during which period I served under several Engineers, who all invariably bore a good testimony to my professional qualifications and management in all branches of engineering (Vide printed statement enclosed. After joining the Municipality in May 1898 I served nearly 4 years and two months mostly during the incumbency of the Presidentships of Mr Leonard who was a professional Engineer himself and of Messrs Puttanna Chetty and Venkatavaradiengar. The above named 3 Presidents entertai-vorable opinions of my profe-sional qualifications, cond character and management as pies of testimonials appended para supra would show. But i is to be regretted that Mr. dami Kristna Row who out of-sonal spite has been prejudi cing the minds of every succe

successive President at the onset, till they were able to find out the real state of things, tried to eclipse the opinions of his superiors Messrs Leonard, Puttanna Chetty and Venkatavaradiengar and of other professional engineers under whom I served for upwards of 26 years and went so far as to make it appear that a man of my experience, service and qualifications and management was incompetent to fill up a few ruts and holes in roads.

He made this representation to the present President, who believed in everything that was told to him, and suspended me within 1½ months after he assumed charge of the office without personally or in writing asking me for an explanation or giving me audience to afford me an apportunity to explain the real state of things. I have written a number of letters, copies of a few of which I have submitted with my explanation dated 20th July 1902, No.A addressed to the President bringing to notice the bad state of roads owing to stoppage of works on them and pointing out our liabilities, since we levy wheel taxes but no notice was taken of these letters and my personal repeated requisitions. The Vice Presi

dent

The explanation in itself is plausible, but I am perfectly certain that had Chengalvarai Naidu been allowed to remain in charge of the roads prior to the Viceroy's visit, very little would have been done to put them in a fit state and it was on account of the urgency of the case that the order of suspension was passed. Mr Venkatavaradiengar has on more than one occasion expressed to me verbally his disaatisfaction with this man's work while he was in charge of the Bangalore Municipality.

Sd. H.H.Sparkes.

22/10/02.

President thinks that when sees some danger all of a d writing two or three orders in a small space of one week in the worst season when nothing could be done he has got rid of his responsibili for allowing the roads throughout to fall into disrepairs. I beg to request that my first explanation may kindly be sent for and the alle gations made in it and its acompa ments may kindly be enquired into and justice done to me. If I were -lowed I would have completed ever thing very satisfactorily long be- fore the arrival of His Excellency It was not work but my ruin that wa aimed at by the Vice President. An innocent man has been punished. I felt a heavy, a crushing shock when I received the orders of suspensio and at the discourtesy shown to m in the wording of the order copy which is herein enclosed. I shall feel the effects of it in every ment of my life as the result not succumbing to dishonesty.

I beg to

Respect

FROM

THE PRESIDENT,
Municipal Commission,
Bangalore City.

To

The Secretary to the Government
of His Highness the Maharaja of Mysore,
General & Revenue Departments,
Bangalore.

SIR,

With reference to your docket No 15853 L.J 131-97 dated the 9th Instant, I have the honor to state that P.C Chengalvaraya Naidoo took charge of the Municipal Engineer's Office on the 16th May 1898 and has thus put in a service of five years in the Municipality. The only leave granted to him in the interval was 15 days' casual leave in June 1901-04. which he availed himself of subject to

During the period of his suspension Krishnaswami Naidoo of Public Works Department Sub-overseer of the Bangalore Division had been employed on Rs 50+30 to look after the duties of the Municipal Engineer. In the current years' sanctioned budget Government have made provision for an Engineer on Rs 150+20 and an Overseer on Rs 50+15. The latter post has remained vacant throughout the year.

Suboverseer Krishnaswami Naidoo was paid out of savings from both the abovementioned items. The Municipal

Executive Engineer's salary is therefore not available in full for the period during which Chengalvaraya Naidoo was under suspension.

I have the honor to be

Sir,

Your most obedient Servant

President.
